

465d. MINERAL MEDIUM WITH BENZYL CYANIDE AS NITROGEN SOURCE

Prepare and autoclave medium 465 without ammonium sulfate. Add 1.8 g/l glucose or, for DSM 9675 and DSM 9685, 1.6 g/l sodium succinate from a sterile solution. Add 120 mg/l benzylcyanide (not sterilized) to the incubation atmosphere or directly to the medium.
