## **Microorganisms**

## **530. THIOGLYCOLATE MEDIUM**

| Peptone from casein | 5.0    | g  |
|---------------------|--------|----|
| Meat extract        | 3.0    | g  |
| Na-Thioglycolate    | 0.5    | g  |
| Agar                | 15.0   | g  |
| Distilled water     | 1000.0 | ml |

Adjust pH to 5.5.

Sterilize Na-Thioglycolate separately by filtration. Optimal  $pO_2$  for growth on solid media is 0.03 - 0.08 atm.
