

627. SEAWATER LEMCO

Beef extract	10.0	g
Peptone	10.0	g
Filtered aged sea water	750.0	ml
Distilled water	250.0	ml

Dissolve ingredients, by heating if necessary. Adjust pH to 7.8, boil 3-5 min, filter.

Readjust pH to 7.3. Sterilize by autoclaving for 15 min at 121°C.

For solid medium add 15.0 g agar after readjusting pH and steam to dissolve the agar prior to autoclaving.
